**TO WHOMSOEVER IT MAY CONCERN**

We wish to certify that, **M/s. GULF ENGINEERS AND CONSTRUCTORS** at 128, Jaihind Nagar, Ernavoor, Madras 600 057, have executed all the project works, of our unit from its inception in 1976; earlier on behalf of others and later from 1980 directly under our supervision.

The total value of works are more than two crores, representing only the labour value and excluding the value of materials. The highest single order value so far done is more than 30 lakhs, in 1988.

The project works related to the installation of all process and utility equipments with drives, inter connecting piping of all varieties. They also contained heavy equipments, glass lined equipments for erection at higher elevation and erection and commissioning of pumps for raw water reservoirs, firewater, boiler feed and cooling towers of large capacities and heads.

In addition, they are continuously carrying out the inplant maintenance works for more than 15 years. Again these works consist dismantling existing equipments and piping, and reerection also. Pumps also form part of the work, with continuous overhauling and replacement services. We do also procure fabricated pressure vessels, heat exchangers, coils, filters and coolers and re-jacketing works from their workshop.

M/s. Gulf Engineers and Constructors are providing all these services promptly with skilled workmen and competent supervision; and so they are with us continuously.

For ICI India Limited,

  
(P.K. SAXENA)
