WORK COMPLETION CERTIFICATE

This is to certify that, GULF ENGINEERS & CONSTRUCTORS PVT LTD., has once again won a contract towards dismantling of existing Boiler No:2, Thermax make, Model: RFB 30, weighing 8 MT and replacing it with a new Boiler SM 100 DH of evaporation capacity 10 MT /Hr, 17.5 Kg/cm² and weighing 28 MT. The work has been executed with total plan of dismantling existing connections, new hook-ups and other necessary modifications of inlet and outlet. The work has been completed in scheduled time and on 23.11.2014

As the authorized Contractor under Indian Boiler Regulations, GULFCONS have also undertook to assist us during the commissioning of this Boiler to its full efficiency.

We wish to inform that this Boiler has been performing well and its efficiency also depend on the proper Erection and also those interconnecting Pipelines and on-line accessories.

We would like to mention that our association with GULFCONS has been for the past 23 Years right from our inception in 1992; GULFCONS has been continuously winning the Annual Maintenance Contracts since 1994 with all categories of workforce being stationed inside our factory. Their conduct of work is methodical following good fabrication practices and as well they are well mannered to work alongside our Engineers completing each work as required by us and in time.

V. A. ARUTSELVAN
Senior Maintenance Manager
