TO WHOMSOEVER IT MAY CONCERN

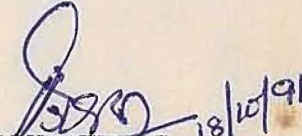

This is to certify that M/s.Gulf Engineers & Contractors, Madras, are known to us for the last 10 years.

They have carried out installation, erection and commissioning of our most modernised High Pressure Dry Air Plant (75 Kg/Cm²) which is now catering high pressure air to our various Wind Tunnel facilities, for obtaining design parameters for Rockets & Missiles.

The system is very hazardous, where safety regulations are very stringent, as such the system constructed as per code specifications - ASME Sec VIII Div.I, welding procedure as per ASME Sec IX with 100% radiography, under the inspection of M/s.Engineers India, as IIIrd party.

Recently M/s.Gulf Engineers & Constructors have carried out the supply, erection and commissioning of a spiral tube After Cooler and its tank, made out of AISI 316 & AISI 304, fabricated as per the above code and specification with 100% radiography to our entire satisfaction.

M/s.Gulf Engineers and Constructors have completed these challenging tasks and various other maintenance work of our system promptly as per our time schedule, and the quality of their workmanship is highly recognised. The total value of the various jobs that had been carried out by them were in the order of Rs.10 Lakhs.
