Revision History details

Revision	Effective Date	Revision History
00	08/01/2020	Released as an OHS Manual to include ISO 45001:2018 requirements.

Manual Distribution & Control

The Manual is prepared by the Safety officer and reviewed by Safety Head & approved by DIRECTORS

The electronic version of this Manual is retained as the MASTER COPY by the Safety Head. Read-only / PDF version of this Manual is posted in the Network for General Reference within the Organization.

The Safety Head is responsible for distributing all revisions of this Manual as changes are approved. The Manual is reviewed whenever any changes occurred and re-issued with new Issue (where necessary). Revisions are made by replacement of the appropriate section(s). Each revised section is identified by revision change no. and the date of the revision. The date column indicates the date on which the latest revision is effective. When revisions take place, the revision No gets changed to 00, 01, 02 and so on.
